

PRODUCT INFORMATION

Grout & Tile Sealer

Premium Grade Grout Sealer Aerosol

Oil and water-based stains are no longer a problem with our easy application Grout Sealer aerosol. This product delivers a deep reaching action into grout lines to ensure the finished seal is secure, impenetrable and long lasting. As a bonus, our Grout Sealer is safe to use in conjunction with most tile types.

Grout Sealer is a solvent based formula designed for deep penetration in to grout. Protects against oil & water based stains whilst still allowing the surface to breathe.

Before application ensure you are wearing suitable P.P.E including vapour mask and goggles.

Ensure the surface to be treated is thoroughly clean.

Shake the can well before use. Apply evenly and wipe any excess or over-spray. For grout lines spray 10-25cm away from the surface.

To test that the area is sealed properly sprinkle a little water onto the surface, if it stays in a droplet from then it is sealed, if not apply a further coat of sealer.

Dry within 1 hour and fully cured within 24 hours.
