

PRODUCT INFORMATION

Thunder FC

Heavy Duty Water Based Flexographic Ink Remover

THUNDER FC has been specially formulated for the removal of fast drying water based inks with a high solvent content. It's aggressive and purging action makes it ideal for both specific and general print room applications.

THUNDER FC can be applied by brush, mop, spray, or other manual applications. Alternatively it is recommended for use in all ultrasonic systems or other immersion cleaning applications either hot or cold.

Powerful - *THUNDER FC*'s complex formulation facilitates the removal of most water based inks, including those with a high solvent content.

Adaptable - rejuvenates rubber rollers, cleans doctor blades, keeps ink ways and supply pipes clear, removes dried ink from stereotypes and the cell structure on Anilox rollers.

Versatile - can be used for manual cleaning and in ultrasonic or immersion tanks.

Highly concentrated - dilute according to specific need.

A dependable solution for print room problems.
