

PRODUCT INFORMATION

Cell Clean Plus

Heavy Duty Flexographic Ink Remover

CELL CLEAN PLUS is a highly built concentrated powerful cleaner which has been specially formulated to be non-flammable and non-abrasive. It's special blend of several water soluble solvents makes it ideal for the removal of ink deposits from deep within the cell structure of Anilox rollers.

Dilute according to the degree of soiling, using 10:1 for heavy deposits and up to 100:1 for less heavy duty work. Apply by brush, mop, spray etc. or use in ultrasonic cleaning or other immersion systems, rinse with clean water. The product should not have prolonged contact with aluminium or other reactive metal surfaces.

Easy application – used by spray, brush or wipe cleaning.

Effective in both hard and soft water areas.

Re-wets stubborn and difficult inks – *CELL CLEAN PLUS*'s powerful formulation quickly emulsifies water or solvent based inks.

Versatile - can be used either in ultrasonic and immersion tanks or in situ using spray, brush or wipe methods.

Concentrated - dilute according to individual requirements.

CELL CLEAN PLUS's highly built formulation makes it ideal for heavy duty and demanding cleaning operations.
